EXPEDITIONS

WINTER WHALES OF NORWAY
2026 & 2027

Dear Explorer,

Over the past 20 years, I've had the privilege of organising numerous polar expeditions. A fascinating and challenging undertaking, each journey crafted to offer unforgettable wildlife encounters in the most breathtaking places on earth.

During the winter months, we operate our signature "Winter Whales of Norway" expeditions. A unique experience for anyone interested in orcas, whales, northern lights and the stunning Norwegian fjords.

From my experience, travelling on board small expedition ships offers the best opportunities to view the orcas and whales. We can adapt our plans to take advantage of daylight, weather and wildlife sightings to maximise our chances for snorkeling.

Bring a good portion of adventurous spirit and be prepared for cold but rewarding days out at sea. This is a true expedition in every sense, embracing the spirit of adventure and discovery, an unforgettable experience of nature.

Marlynda Elstgeest

CEO & Owner
Waterproof Expeditions

WINTER WHALES OF NORWAY

Tromsø, Norway

October - January

Our **Winter Whales of Norway** expeditions depart from Tromsø, situated 350km above the Arctic circle. Each winter, for only a brief period, Northern Norway becomes home to the largest gathering of orcas and humpback whales on the planet. They follow the enormous amount of spring-spawning herring that congregate in the fjords. This offers the unique opportunity to snorkel with wild orcas and watch their behaviour under water.

We operate small, luxury expedition yachts that accommodate 12-16 persons. Our voyages are 6 nights (7 days), providing an ideal balance of exploration and comfort as you journey through the stunning fjords. The advantages of travelling onboard one of our small ships are numerous. We don't have to return to port each night, which allows us to be on location at first daylight and maximise our time looking for whales. With the assistance of local experts, fishing vessels and the science community, we stay in touch about the where-abouts of the animals. Our two expert guides will inform you about the behaviour of the orcas and whales, and how to snorkel with them in a responsible way. On board we provide a complete, high quality snorkeling package, including Waterproof® drysuit and thermall overalls.

Ultimately, we depend on nature and weather conditions for our expeditions. You may spend some days searching without success until an opportunity for snorkeling arises. A flexible mindset is essential and the key to having a great experience. We can't guarantee seeing orcas or whales. Even when we do encounter these majestic creatures, the sea conditions may not always allow for safe snorkeling.

DAY 1 | EMBARKATION - TROMSØ

Embarkation starts around 16.30 in the afternoon. Our expedition guides welcome you at the meeting point in Tromsø. Once everyone is settled on board, it's time to venture into the fjords north of Tromsø.

DAY 2 - 6 | EXPLORING THE FJORDS

During five full days, we will search for signs of whales and orcas. The bridge is an ideal place to scan the horizon with your binoculars and the outside decks offer plenty of space for photographing both the animals and the stunning winter scenery. In past winters, we've been fortunate to encounter orcas, humpback whales, fin whales, and even sperm whales! White-tailed eagles, seals and porpoises are also frequently spotted in the fjords.

When a snorkeling opportunity presents itself, our guides will give you the signal to gear up. Once everyone is ready, you'll board the zodiacs, which will take you within safe distance of the whales. Seeing these magnificent creatures up close in their natural habitat is truly a privilege. As you gently slide into the water, you'll have a rare chance to take a look into their world. Make sure to enjoy every minute of it!

The time you get to spend in the water depends a lot on the behaviour of the whales. You may need to climb in and out of the zodiac several times before finally getting a good look at them under water. If you choose not to go snorkeling, you can still join the zodiac for a splendid topside photography experience. We provide comfortable and waterproof zodiac suits to keep you warm.

During the darker hours, we usually stay at anchor in a quiet bay. You can enjoy the cosy comfort of the ship and our guides offer educational lectures about whales and other interesting topics. We may go ashore one or two evenings to stretch our legs and find a good spot to capture the Northern Lights. Our guides can assist you in setting your camera for some spectacular photos.

Depending on the weather conditions, we may also offer the *Polar Plunge*, a chilling jump into the water above the polar circle!

DAY 7 | END OF THE VOYAGE

Your expedition ends in the same place where it started, in Tromsø. After breakfast on the last day, you will say farewell to the crew and your fellow expeditioners.

TROMSØ

NORTHERN NORWAY

NORWAY

2 / -2°C | 39 / 28 °F

69° NORTH

Tromsø is considered the northernmost city in the world. The town is easily accessible by plane from most European countries, usually with a stop in Oslo. The main airlines flying to Tromsø are Scandinavian Airlines, Norwegian and Widerøe. The airport express bus takes you to Tromsø city center in app. 10-15 minutes. There are plenty of nice accommodations for your stay. Tromsø is not big, so you are never far away from the city center and port.

Our meeting point is at the **Scandic Ishav Hotel**, which is close to where our ships are usually docked. You will receive more detailed information several weeks prior to departure. Make sure you arrive at least one day before embarkation to account for any flight delays, and to explore Tromsø's charming city center and museums. You can also join local activities like dogsledding or snowmobile safaris, though these are dependent on snowfall and typically available from December onwards.

WINTER IN NORTHERN NORWAY

Our voyages take place above the Arctic Circle during winter. You might expect snow and ice, but due to the Gulf Stream, Northern Norway has a rather mild climate for a place at this latitude. The average temperatures will likely be around freezing and snow usually doesn't fall until half November. You can experience anything from storms and choppy seas to sunny days with calm water. All weeks we operate are good for whale watching. It's the weather and behaviour of the whales that determine the success of our expeditions.

DAYLIGHT HOURS & POLAR NIGHT

At the start of the season in late October, we enjoy several hours of daylight each day. However, moving toward the year's end, days shorten quickly. By late November, the Polar Night sets in and the sun does not rise above the horizon. This phenomenon, unique to areas above the Arctic Circle, draws many visitors to Northern Norway each winter. On clear days, the landscape bathes in a soft light, creating stunning opportunities for photography as colours shift from pink and purple to deep blue. This twilight can last for hours, transforming the fjords into a magical winter scenery. In mid-January, the sun returns and the number of daylight hours increases rapidly each day.

NORTHERN LIGHTS

Northern Norway sits directly beneath the Aurora Oval, where the chances of witnessing the Northern Lights are at their highest. With minimal light pollution, the region offers excellent viewing conditions. We are currently experiencing a period of heightened solar activity, creating exceptional opportunities to witness bright and vibrant auroras. All we need is a clear sky and a little bit of luck for the magic to unfold. You can download an "Aurora notification app" to keep track of the solar conditions.

MOTHER NATURE

All elements of nature have to come together in order to go snorkeling. Calm weather, nearby whales, and sufficient daylight are all essential for a safe experience. Conditions can vary daily, making each trip unique and unpredictable. Based on our experience, the best opportunities tend to occur between late October and the end of January. However, it's important to remember that nature ultimately decides. Flexibility and patience are key to a successful adventure!

OUR EXPERT TEAM

EXPEDITION GUIDES

The secret behind Waterproof Expeditions lies in a team of experts, driven by a boundless curiosity for adventure and a love for wildlife. Each voyage is accompanied by two guides in order to get the most out of your expedition.

Our expedition team is composed of seasoned naturalists, whale experts, photographers and polar specialists, all sharing a deep passion for the polar regions. Their vast knowledge of wildlife and especially about whales and orca behaviour, ensures we can provide an unforgettable and responsible experience.

Learn from them as they share their personal stories and insights, offering you a unique perspective on exploration and wildlife conservation.

Please note we cannot guarantee specific guides for any expedition, as assignments may change due to scheduling, availability, or unforeseen circumstances.

SNORKELING WITH WHALES & ORCAS

RESPONSIBLE & SAFE OPERATIONS

MANAGING EXPECTATIONS

Rule number one when it comes to wildlife watching; Nothing is guaranteed! We will always do our utmost to offer you the best experience but cannot guarantee that all activities will take place as we've outlined in advance. We deal with wild animals in open water and unpredictable weather conditions. Therefore, we ask all our guests to set realistic expectations and be flexible to make this experience a success.

Our guides are constantly on the lookout for orcas and whales. However, they are not always in the same spot and it might take some time to find them. The search is part of the adventure. Some days you might not see any whales or orcas at all. Don't let this get you down. Enjoy the beautiful scenery, the facilities of the ship and the company on board.

SAFETY FOR WHALES AND SNORKELERS

The captain and crew decide whether it's safe to launch the zodiacs from the ship. There are reasons why the guides might not approach the whales. For example, there are too many other vessels close to the whales or the animals are not feeding but underway to another location. Approaching whales will always be done cautiously, at a low speed towards the side of the pod. When snorkelers of other boats are already in the water, zodiacs must wait at least 50 metres away. We always do our utmost to find whales in a calm area with no other boats around.

In Northern Norway, there are several popular locations where large numbers of orcas and whales return every year. These locations may be crowded with boats, creating unsafe situations for people and animals. This is why we often divert to other locations in search of whales away from the crowds.

Please note, we don't offer diving or free diving activities, as we don't want to disturb the animals, make them deviate from their course or interfere with their feeding behaviour.

HAPPY WHALE

We support Happy Whale, a non-profit organisation dedicated to identifying whales. On board, you will receive more information about our partnership and the ways you can help their research.

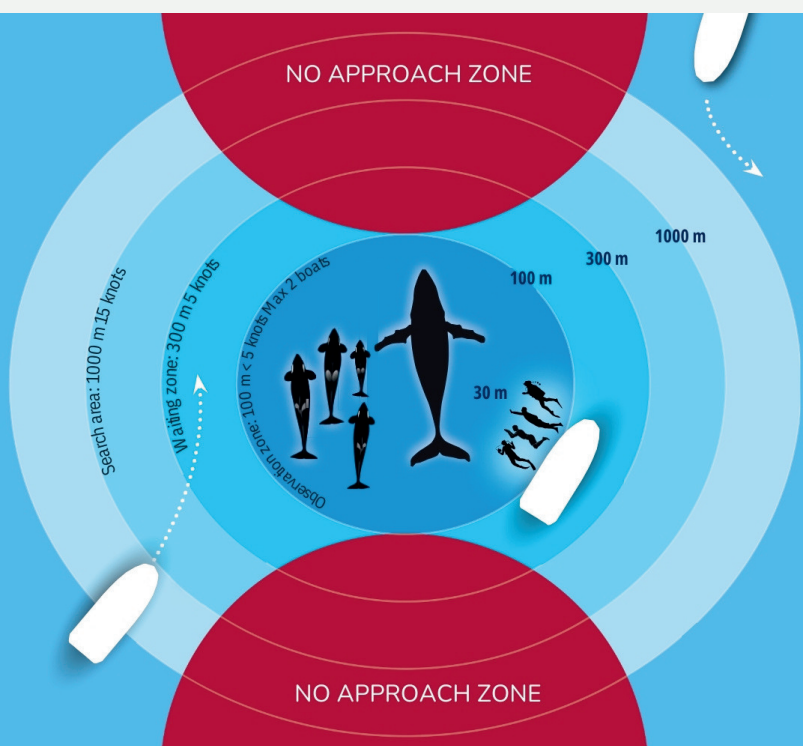

SNORKELING PROCEDURES

It's our goal to observe orcas and whales in their natural habitat while snorkeling at the surface. To offer the best experience, we only take 6-8 snorkelers per zodiac. When the guide decides it's safe, participants go into the water gently. Sometimes you might only be in the water for a few minutes, but if we're lucky we can stay in the same place for hours. If the whales move away, or show any signs of disturbance, the guide will signal you to come back into the zodiac.

When you are in the water:

- Keep visual contact with the guide on the zodiac so you can quickly respond to signals;
- Keep a distance of at least 20 metres between yourself and the whales;
- Stay with the group at all times;
- Avoid diving, splashing and making loud noises;
- Touching the animals or approaching to make contact is strictly forbidden.

Note: all briefings and instructions will be in English, it is important that you understand it sufficiently in order to participate in snorkeling!

© Josh Anon - joshanon.com

IMPORTANT - REQUIREMENTS FOR SNORKELING

Our snorkeling expeditions are intended for persons in good health. Participants should have basic snorkeling skills, and be confident swimming in open water that may sometimes get choppy.

In order to participate in the snorkeling activity, you need a certain level of fitness and strength. The water is cold and the use of a drysuit might be a new experience for you. Putting on your snorkeling gear, swimming in deep water and repeatedly lifting yourself in and out of the zodiac are both physically and mentally challenging. Passengers who are not fit for such an activity for any reason that could entail a risk to your safety or the enjoyment of other passengers on board, will not be allowed to join the snorkeling activities.

Snorkeling is not mandatory during our expeditions, if you are unable to go snorkeling you can still join the zodiac for exceptional top-side whale watching.

YOUR WATERPROOF® SNORKELING PACKAGE INCLUDES:

Waterproof Snorkeling Drysuit*

Waterproof Thermal Overalls*

Waterproof Neoprene High Visibility Hood

Waterproof 7 mm Gloves

Waterproof Marine Boots

Fins, Snorkel and Mask

** Limited range of sizes available: S - M - L - XL - XXL*

ALL INCLUDED

SNORKELING PACKAGE

BY WATERPROOF®

In 2010, we invented an exciting new activity: **Polar Snorkeling**. Partnering with **Waterproof International** in Sweden, we developed our unique Polar Snorkeling drysuits. Today, we are the only expedition operator in Northern Norway to provide a complete, high quality snorkeling package, at no extra cost!

The drysuit is the key component for snorkeling, designed to keep you completely dry in cold water. It must be worn with insulating layers underneath. For this purpose, we provide special thermal overalls. These will not only keep you warm while snorkeling but also double as a comfortable outer layer, perfect for whale watching from the ship.

IMPORTANT! We only have a limited selection of sizes on board. If your chosen size does not fit, we cannot be held responsible. Please refer to the last page of this brochure for more detailed information and a size chart.

LUXURY YACHT

12 PASSENGERS

JACUZZI & SAUNA

GREAT LOUNGE

Polar yacht Explorer was originally built in 1994 as an oceanographic research vessel. It has recently been renovated to reduce its impact on the environment and the interior has been completely redesigned. The refurbished polar yacht now offers the most refined and high-end small ship cruising experience. With only 12 guests, it will feel like you are on a private luxury expedition! Explorer offers free onboard WiFi via Starlink.

The open-plan lounge offers comfortable seating where you can relax or attend lectures, with nearly 360° panoramic views of the fjords. On the multiple observation decks, you'll have ample opportunities for photography, or you can spend time on the bridge, scanning the horizon for wildlife. During the darker hours, the sauna and jacuzzi on deck are a great place to warm up. The upper deck features two Single Cabins and two luxurious Executive Suites with floor-to-ceiling windows, double beds, and direct deck access. The lower deck hosts two Superior Suites and three Deluxe Single Suites. All rooms have private bathrooms.

EXECUTIVE SUITE

- Spacious suite
- Double bed
- Luxury bathroom with walk-in shower
- Desk with chair
- Floor to ceiling window
- Situated on the upper deck
- Direct access to outside deck

SUPERIOR SUITE

- Comfortable suites
- Double bed or twin beds
- Luxury bathroom with walk-in shower
- Porthole windows
- Situated on the lower deck

SINGLE DELUXE SUITE

- For single travellers
- Twin suite for private use
- Double or twin beds
- Luxury bathroom with walk-in shower
- Porthole windows
- Situated on the lower deck

SINGLE CABIN

- Comfortable cabin for single travellers
- Single bed
- Bathroom with shower
- Desk & chair
- Picture window
- Situated on the upper deck

VIRGO

POLAR VESSEL

12 PASSENGERS

COSY ATMOSPHERE

SINGLE CABINS

Virgo is an ideal ship for intimate small group expeditions to Northern Norway, offering bright and spacious inside areas and large deck spaces outside. She was originally built as a Swedish buoy laying vessel and has been completely refurbished for new adventures as a leisure expedition ship. You will feel right at home from the moment you step onboard.

A great feature on board Virgo is the spacious lounge on deck 2. Ideal for viewing the scenery, photo editing, and chatting with fellow travelers. The chef has a varied and tasty menu that will be served in the cosy dining area three times per day, however we intend to be flexible should any wildlife suddenly appear. Virgo can accommodate up to 12 guests in its 9 comfortable cabins, each featuring fresh Scandinavian interiors and private bathrooms. The upper deck offers 3 double cabins, while the lower deck has 6 single cabins, all with at least one window or porthole. There's also a small sauna onboard, and WiFi is available at an extra cost.

SUPERIOR SUITE

- Large cabin with seating area
- Twin beds
- Bathroom
- Ample storage space
- A desk with chair
- 2 windows
- Situated on the upper deck

DELUXE TWIN CABIN

- Twin beds
- Bathroom
- Ample storage space
- A desk with chair
- 1 window
- Situated on the upper deck

SINGLE CABIN

- Single bed
- Bathroom
- Ample storage space
- A desk with chair
- 1 window or porthole
- Situated on the lower deck

POLARFRONT

BOUTIQUE YACHT

12+ PASSENGERS

HOT TUB & SAUNA

SPACIOUS SUITES

Polarfront is a boutique-style expedition ship, capable of navigating deep into the Arctic. Originally built in 1976, it holds a unique place in maritime history for being the last meteorological ship to contribute to global databases. After a major technical upgrade in 2024, it now boasts new propulsion and power systems that meet top environmental standards. Quieter operations ensure a peaceful experience, reducing noise pollution in the water and allowing for an undisturbed connection with the Arctic environment.

Polarfront offers expansive outside decks, perfect for photography. The panoramic barrel sauna and hot tub on the aft deck are ideal for unwinding after a chilly day. Inside the ship, you'll find a cozy lounge, dining area and library. Polarfront features eight spacious suites for a maximum of 16 persons. Each room has a private bathroom and you'll find a hair dryer, towels, bathrobes and shower products. WiFi is available at an extra cost.

EXECUTIVE SUITE

- Largest suite on board
- Seating area
- Desk & chair
- Double bed
- Large bathroom with shower
- Separate toilet
- 3 closets and open shelves
- 4 porthole windows

SUPERIOR SUITE

- Spacious suites
- Twin beds or double bed
- Small seating area
- Bathroom with shower
- 2 or 3 porthole windows
- At least 2 closets for storage

DELUXE SUITE

- Twin beds or double bed
- Small seating area
- Bathroom with shower
- 2 or 3 porthole windows
- At least 2 closets for storage
- Suites #1 and #3 can be connected as a family room

Note: We can offer shared twin cabins upon request (depending on availability). In this case, you would share the room with someone of the same gender. Beds will be set up as twins with a curtain in between.

VIKINGFJORD

EXPEDITION YACHT

12 PASSENGERS

JACUZZI & SAUNA

BRIGHT INTERIOR

Vikingfjord is a luxury expedition ship with an ice-strengthened hull for exploring the polar regions. It has recently been renovated to reduce its impact on the environment and was fitted with a new and light Scandinavian design interior.

Vikingfjord offers great comfort for its 12 guests. The open plan observation lounge on deck 2 is the heart of the ship. It has various comfortable seating areas for all guests to sit and enjoy the polar scenery, listen to presentations or go through your photos of the day while enjoying a nice drink from the bar. You can enjoy freshly prepared meals in the restaurant on deck 1.

After a day out in the cold, you will be able to warm up like a true Scandinavian! Have a relaxing moment in the sauna or take a plunge in the jacuzzi on the top deck, the best place for a chat with your fellow expeditioners while you enjoy the views.

SUPERIOR SUITE

- Double bed
- Private bathroom
- Located on deck 3 (upper deck)
- Windows
- Desk & chair
- Wardrobe

DELUXE CABIN

- Comfortable Twin or Double Bed
- Private bathroom
- Located on decks 1 & 2
- At least 1 (porthole) window
- Desk & chair
- Wardrobe

SINGLE CABIN

- For 1 Guest
- Comfortable single bed
- Private bathroom
- Located on decks 1 & 2
- At least 1 (porthole) window
- Desk & chair

TERMS & CONDITIONS

All prices are per person and depending on availability. We have dedicated single cabins on board Explorer, Virgo and Vikingfjord. If you prefer a double cabin for single use, please note that a single supplement is applicable.

INCLUDED

- 6 Nights accommodation on board.
- Breakfast, lunch & dinner: *Starts with dinner on the first night, ends after breakfast on the last day.*
- Coffee, tea & water throughout the day.
- Snorkeling activity including all snorkeling equipment.
- Warm zodiac suits for non-snorkelers.
- Use of onboard sauna.
- Use of onboard hot tub (on Polarfront, Explorer and Vikingfjord).
- Briefings & lectures by the experienced guides in English.
- All service taxes and port fees.

NOT INCLUDED

- Flights & transfers
- All items of a personal nature such as laundry, bar drinks, meals ashore and telephone charges
- Gratuities
- Pre and post voyage excursions and hotel.

MANDATORY INSURANCE

Travel Insurance with worldwide medical evacuation coverage is mandatory. We also strongly recommend you take out a trip cancellation insurance. This will cover your cancellation costs in case you need to cancel your trip after you confirmed your booking.

This expedition is intended for persons in good health. We reserve the right to exclude any passenger at any time during the expedition should a condition become apparent that could entail a risk to safety or to the enjoyment of others. In the case of such an exclusion, Waterproof Expeditions will not accept any claims for restitution.

BOOKING & PAYMENTS

If you are interested in signing up, please inform us by e-mail. We require a 30% deposit to confirm your booking. Once we have received your deposit, your place onboard is guaranteed. The final payment is due 3 months prior to departure.

We accept payments via bank transfer or by credit card (Visa, Mastercard or American Express). The bank information and payment details will be provided on the invoice.

If you prefer to pay by credit card, we will send you a secure credit card payment request via e-mail. Please note, a 4% fee for credit card payments is applicable.

DISCLAIMER

There is no fixed route for our expeditions. The water conditions and wildlife behaviour will determine our plans. The success of our voyages is based on realistic expectations and your personal flexibility.

We cannot guarantee specific guides for any expedition, as assignments may change due to scheduling, availability, or unforeseen circumstances.

To participate in our snorkeling activity, guests should be in good general health, have an appropriate level of fitness and have basic snorkeling skills. Guests whose mobility, physical condition (including excess body weight), or medical concerns may affect their safety or the overall experience of the group may be denied participation in the activity. Our Expedition Leader reserves the right to make the final decision regarding participation.

SNORKELING PACKAGE - INCLUDED

WATERPROOF D9 SNORKELING DRYSUIT

Our snorkeling drysuits are made from light and breathable fabric with a front zipper. They feature latex neck and wrist seals, and either have boots attached or socks for separate boots.

We only have a limited range of sizes on board. If you believe our suits will not fit you, we recommend bringing your own drysuit (e.g. a rental suit). We cannot be held liable if your chosen size does not fit!

WATERPROOF HIGH VISIBILITY HOOD

The High Visibility Hood features a bright orange coloured surface with reflective patches for ultimate visibility in choppy sea conditions and low light. It features double layered heat loss protection and glideskin seals for the neck and face.

WATERPROOF 7 MM 3-FINGER MITTENS

Our semidry mittens feature pre-bent fingers, double glideskin seals and a long zipper for easy donning. Polyurethane print in the palm provides extra grip.

WATERPROOF B5 MARINE BOOTS

The neoprene soft boots have adjustable straps to secure the foot from slipping inside the boot and also tightens the area where air and water otherwise would flow. The fin strap stopper will firmly keep your fins in place.

FINS, SNORKEL AND MASK

We provide open heel fins, snorkels and masks in various sizes. If you have your own snorkel and mask, you might want to bring these to ensure you have a well-fitting set.

Please note, it's not possible to use a full-face snorkeling mask!

THERMAL OVERALLS

Our thermal overalls are designed to be worn as a warm under layer for your drysuit, but they are equally suited as an outer layer, e.g. for whale watching from the ship. The thermal overalls will be the same size as your drysuit.
