LIFE ON BOARD

No two days are the same, but this is what you might expect during your stay on board.

DURING THE DAY

Whales and weather determine our plans. Your guides will be on the lookout from first light to maximise opportunities for wildlife encounters. From the bridge or the outer decks, join us as we search for orcas, humpback whales and other Arctic wildlife in the fjords.

When a **snorkelling** opportunity presents itself, we will ask you to gear up. Once everyone is ready, we'll head out in the zodiacs!
Not snorkelling but still keen to join the zodiac? Just let us know in advance so we can get a zodiac suit ready for you.

DURING THE EVENING

As daylight fades, we gather together to relax, learn and reflect on the day's experiences.

Enjoy informal **presentations** from the expedition team about whales, marine life and Arctic nature. Warm up in the outdoor **hot tub** or **sauna**, and make sure to take part in our **polar plunge**, only for those brave enough!

On clear evenings we may witness the **Aurora Borealis** and occasionally head ashore for photography opportunities.
